Visibility is key to firefighters

JOURNAL STAFF

Can your house be seen from the lake?

Lake Stevens Fire reminds our citizens with homes on the lake to have their address numbers posted clearly on the lake side as well as the street side.

A clearly marked address can reduce the amount of time it takes to respond to your emergency. Don't wait for an emergency to find out.

Whether or not you live on the lake, please take a moment to confirm that your house number can be easily seen. Visibility is key to a timely response!
