Mobile home in Lake Stevens burns

JOURNAL STAFF

A fire, which engulfed and gutted a vacant mobile home last week, is still under investigation as of Sunday.

Circumstances surrounding the fire seemed suspicious according to Getchell Fire Chief Travis Hots in a statement from last week.

As of Saturday, Hots said that there was nothing new to report on the mobile home

fire and that he would be contacting the County Fire Marshal this week.

The cause for suspicion was that the unoccupied home had no power according to statements in last week's fire.

No injuries were reported, and no other structures were in danger of catching fire once the fire crews surrounded the burning building.

The mobile was vacant and no injuries were reported.
